- turn off electrical power to any computer
- try to run any hard drive, back up disc or tape to try to retrieve data
- tamper with damaged computers, discs or tapes
- move damaged computers.

SALVAGE AND STORAGE

If damage to the building is such that the interior is exposed to the elements or unsafe, under the terms of the insurance policy, Kirklees Council should be contacted to arrange hire of portable buildings. These would be sited **on the playground and if necessary, the car park** with cars having to be parked wherever possible on street. All incoming deliveries would be cancelled.

Any salvaged materials or stock could be stored in a portable building or if not appropriate, with Ms Z Adam.

DUTY OF CARE

If the building has been evacuated for structural safety reasons, before reoccupation, a member of the Governors' Health and Safety Sub-Committee along with the Local Authority Building Control Officer will make an inspection to see if the structure is safe.

Advice from the Environment Agency

Following an incident, any spillages, contaminated materials or firefighting water, should be disposed of in the correct manner. Contaminated water should not be disposed of in a drain without prior permission. (Maximum penalty £20,000)!

If off-site disposal of solid liquid or waste is required, a registered carrier of waste should be used and the movement documented.

For further advice the Environment Agency can be contacted on 0800 807060.

This plan will be reviewed every 12 months. It will be invoked as soon as possible after an emergency and as a training exercise once every 2 years.
